⁽¹⁾ Of the \$141,256 (000) in Level 3 securities as of June 30, 2019, \$139,248 (000) or 98.6% are not valued via third party pricing vendors and broker quotes. If significant, the disclosure of the unobservable inputs and the interrelationships and sensitivity between these inputs is required for those Level 3 securities that are not valued by third party vendors or broker quotes.

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining value as of June 30, 2019:

City National Rochdale Fixed Income Opportunities Fund

The following table summarizes the quantitative inputs and assumptions used for items categorized as material Level 3 investments as of June 30, 2019. The disclosures below also include qualitative information on the sensitivity of the fair value measurements to changes in the significant unobservable inputs.

	Fair Value at June 30, 2019 (000)	Valuation Techniques	
Life Settlement Contracts	\$139,248	Discounted Cash Flow Model	_
		Observable Inputs	_
		Maturity Value	
		Unobservable Inputs	Range
		Discount Rate	13.5%
		Expected Maturity (months)	6-130 months

The unobservable inputs used to determine fair value of recurring Level 3 assets may have similar or diverging impacts on valuation. Significant increases and decreases in these inputs in isolation and interrelationships between those inputs could result in significantly higher or lower fair value measurement. Increases in projected collection rates in isolation would result in a higher fair value measurement, while increases in expected discount rates, projected default rates, and maturities of life settlement contracts, in isolation, would result in a lower fair value measurement.

For the period ended June 30, 2019, there have been no transfers between any of the fair value hierarchy levels. Transfers between Levels are recognized at period end.

For more information on the Fund's policy regarding valuation of investments and other significant accounting policies, please refer to the Fund's most recent semiannual or annual financial statements.
